

## Dynactiv™ Surfaces

### Solar Floating Cover Material

Coverage of water reservoirs with a reinforced polymeric foil and using the surface for the installation of photovoltaic panels.

#### Product Benefits

- › Improvement of hydro-biological water quality
- › Evaporation prevention
- › Renewable energy production
- › Ideal platform for the installation of photovoltaic
- › Double use of land
- › Autonomous water & power supply

#### Technical Information

- › Very high tensile strength of the foil material
- › UV light resistant
- › Walkable
- › Semi rigid photovoltaic panels I
- › Installed PV capacity up to 500 kWp per 10,000 m<sup>2</sup>
- › Reinforced 3 ply PVC foil
