Dynactiv™ Surfaces

Dynactiv™ is a new premier product and services portfolio from Benecke-Kaliko AG that stands for dynamically active, innovative surface materials and outstanding solutions for a wide variety of industries.

Benecke-Kaliko is one of the world's leading specialists in surface innovation and an international partner for designers of contemporary surfaces and for producers of solutions for designated applications. With an expertise in development, design, and production extending worldwide, Benecke-Kaliko creates products with exceptional characteristics. In addition to abrasion resistance, opposition to UV light rays, and high scratch resistance, Benecke-Kaliko materials uniquely offer superiority in eco-friendliness, weight optimization, appearance, and haptics in terms of grip and touch.

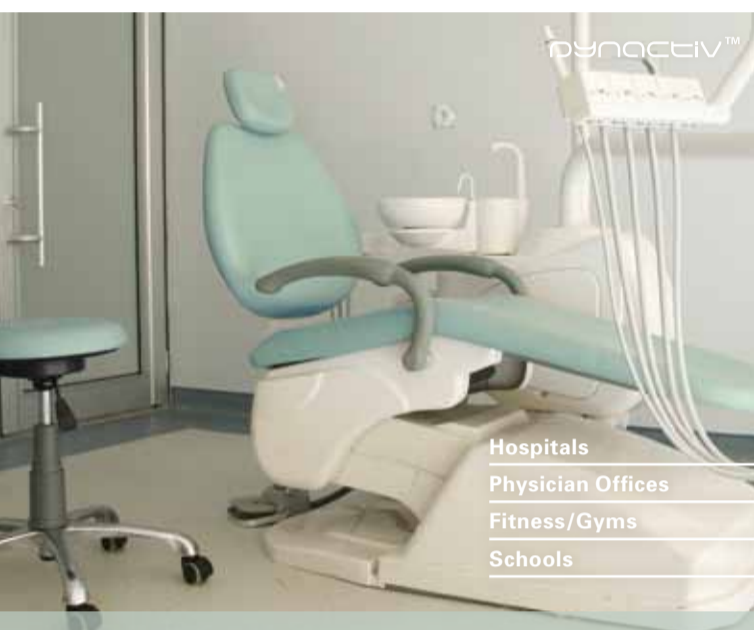

The Dynactiv™ Surfaces portfolio comprises of eight different product groups classified by industry: Hospitality, Health, Home, Fashion, Mobility, Protection, Power and Blend.

- Airports
- Hotels/Restaurants
- Train Stations
- Shopping Malls
- Stadiums
- Theaters/Cinemas

Dynactiv™ Hospitality

When it comes to durability, hygiene and ease of care of furniture and fittings, Benecke-Kaliko's Dynactiv™ Hospitality range offers a winning solution in every respect. You'll find them in hotels, restaurants, bars, cinemas and shopping malls everywhere – because Dynactiv™ Hospitality materials are highly resistant to abrasion and aggressive substances and are extremely easy to clean.

- Hospitals
- Physician Offices
- Fitness/Gyms
- Schools

Dynactiv™ Health

In care clinics, hospitals and physician offices, Benecke-Kaliko's innovative Dynactiv™ Health products help keep hygiene standards high. Special anti-static coatings resist bacteria and germ contamination without inclusion of additives that could pose a potential threat to one's health. These products are also of interest for gyms, child day-care centres, schools and hotels with spas.

- Furniture
- Outdoor Furniture

Dynactiv™ Home

Decorative, stylish, and of the highest quality, Dynactiv™ Home surface coverings for indoor and outdoor furniture are the result of decades of research and development. From classy to trendy, Benecke-Kaliko has the expertise to achieve unprecedented style and feel, and it goes without saying that these surfaces are easy to clean and highly resistant to everyday wear, tear and weathering.

- Shoes
- Fashionable Rain Coats
- Luggage/Bags
- Sportswear

Dynactiv™ Fashion

If fashion drives the business and there is a need for high-quality materials, Benecke-Kaliko's premier functional and inspiring Dynactiv™ Fashion solutions are an absolute must. These materials serve as the basis for the latest rain-, sports- and footwear creations from renowned designers and fashion entrepreneurs. One exceptional quality is sensitivity to the skin making for extremely comfortable designs. The Dynactiv™ Fashion range is also ideal for bags and luggage, thanks to the premium aspirational appeal and longevity available only from Benecke-Kaliko.

- Aviation
- Public Transport
- Marine Applications
- Recreational Vehicles
- Aircushion Foils

Dynactiv™ Mobility

Interior surfaces of airplanes, trains, cruise liners and yachts have to be highly durable, flame-resistant and extremely lightweight. Attributable to years of refinement, Benecke-Kaliko has become a leading provider of products that excel in harsh operating environments and Dynactiv™ Mobility solutions are no exception. They can be found in a wide variety of contexts, for example in public transport, where operators perform most effectively with an ergonomically optimized seating surface providing long lasting comfort. Benecke-Kaliko's Dynactiv™ Mobility solutions are uniquely infused combinations of superior design, durability, versatility, and feasibility.

- Professional Waterproof Solutions
- Protective Clothing
- Uniforms
- Survival Gear

Dynactiv™ Protection

Protective clothing, uniforms, and survival gear must keep their users as safe as possible without compromising comfort in fit. Benecke-Kaliko's Dynactiv™ Protection materials meet stringent global standards for extraordinary performance requirements such as flame protection, water penetration resistance, anti-static properties, and ultra-high visibility – for optimum protection in safety-critical operating conditions.

- Energy Producing Innovations
- Protective Covers

Dynactiv™ Power

Environmental sustainability and value creation are at the core of Benecke-Kaliko's mission and solutions within the Dynactiv™ Power family, that are optimized in this regard – from protective covers for conserving natural resources to state-of-the-art energy producing innovations. For example, in countries that require fresh water storage in large-scale reservoirs, an ultra-durable surface cover featuring integrated solar energy generating technology from Benecke-Kaliko's Dynactiv™ Power family is a winning solution that delivers preservation, conservation, and value generation.

- Exclusive Formulated Compounds
- Granulated Mixtures
- Recycled Material Blends

Dynactiv™ Blend

Synergy is the focus of Dynactiv™ Blend in terms of both, value creation and repurposing. Benecke-Kaliko offers exclusive formulated compounds, granulated mixtures, and recycled material blends suitable for nearly every imaginable application. Filler for injection moulding is one popular use as the material properties open up a host of opportunities.
